

Where It **All** Began

FlashAcademy® was first setup in 2012 as FlashSticks® and has since evolved into something much more!

Our mission has always been to ensure that no pupil is held back by a language barrier.

Today we support **1,000+ schools** to make a difference with EAL!

School No.1

In September 2017, our first school joined **FlashAcademy®**.

Claire Evans, Deputy Head at Anderton Park sat down with our founder Veejay Lingiah and became the first school to pioneer the use of **FlashAcademy®** to support EAL pupils.

“Pupils love it. Having their own app makes them feel special and they can also help their parents learn English at home.”
